

Power

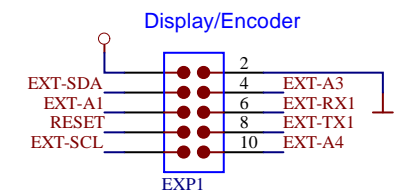

Populated with a Capacitor
between 1 and 2 for Ender3

Note: neither "D522" or "REP30N06LE" seem to exist
"TSM06N03ECP" looks like a valid replacement part

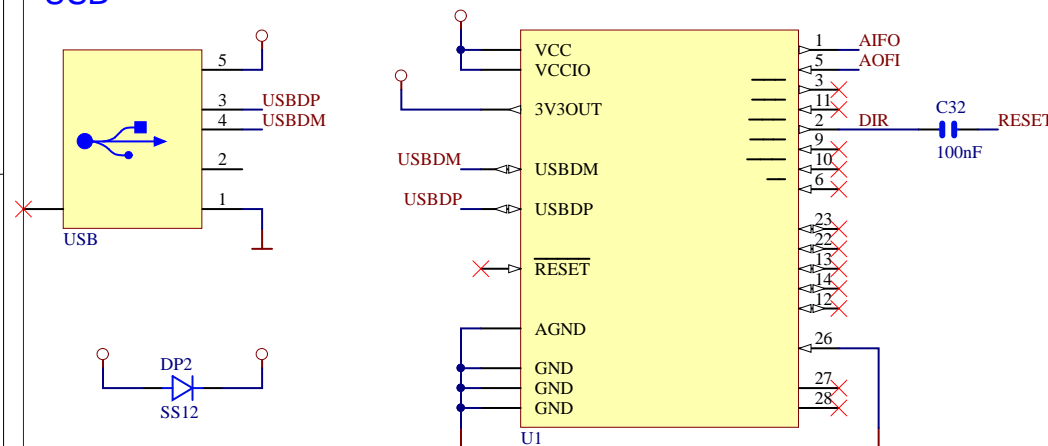

Note: seemingly misplaced cap serves no purpose at current position

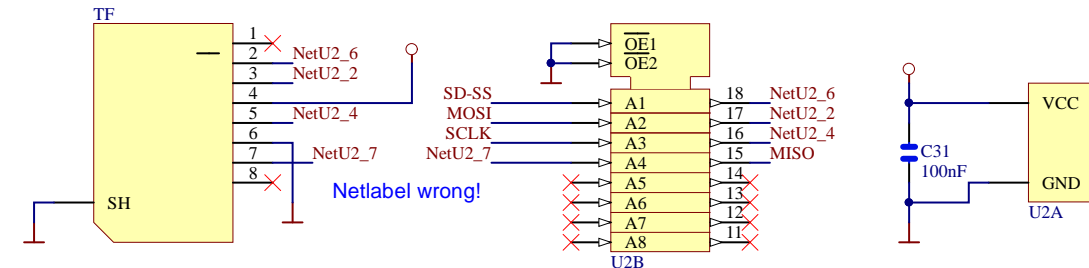

Note: The footprint uses a mirrored numeration

USB

microSD

Note: "VDD" is supplied by 3V3Out of FT232RL with 50mA rating
